Pin

Once the login credentials are verified by the system it will ask for the identity check of the candidate through face verification

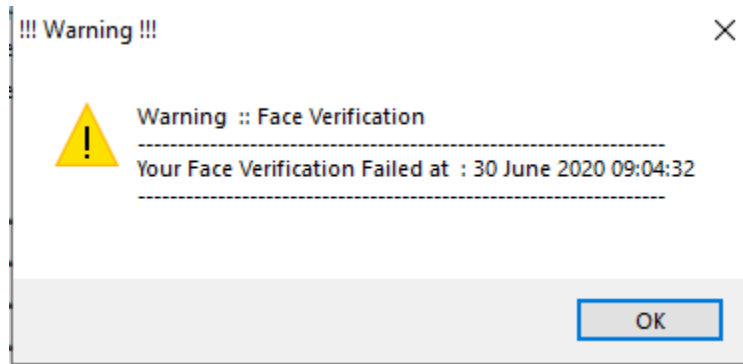

Keep your face in the center of the camera / screen with proper illumination on the face and click on “Capture and Verify”

FormFaceVerification

Note : -
We are going to verify you by Capturing Photo from your Webcamera.
Please be in front of Webcamera during the process.
Click Capture and Verify Button once you are ready.

In case the face does not match exactly the system throws following error

Face Validation functionality verifies that the photo captured during the exam login exactly matches the one provided at the time of Admit Card download.

So, it is advised that the candidate **MUST** take the mock test very seriously and check whether the photograph provided during online registration is appropriate. If the candidate faces any issues with photo verification, he/she **MUST** immediately escalate the same (during the mock test only) to the Technical Helpdesk or write an email to online.examsupport@sxuk.edu.in to avoid any issue during main exam.

The candidate must arrange stipulated infrastructure as communicated by the university website at the time of filing application and as mentioned in the guidelines document. Sxuk will not be responsible for any issues arising due to unavailability of stipulated infrastructure at the candidate's end.

“Please ensure that your camera remains switched on throughout the examination duration for automated face validation. Any instance of the camera being switched off or detection of an unfamiliar face during the examination will result in the cancellation of the candidate's candidature”

For any issues, please connect with the “Technical Helpdesk” as mentioned on your Admit Card
